How can a child show a dog a little kindness? Here are some great ideas, if you will only mind us.

Your dog loves to hang out with you, whatever plans you have. In fact, if you don't invite her, she might feel kind of sad.

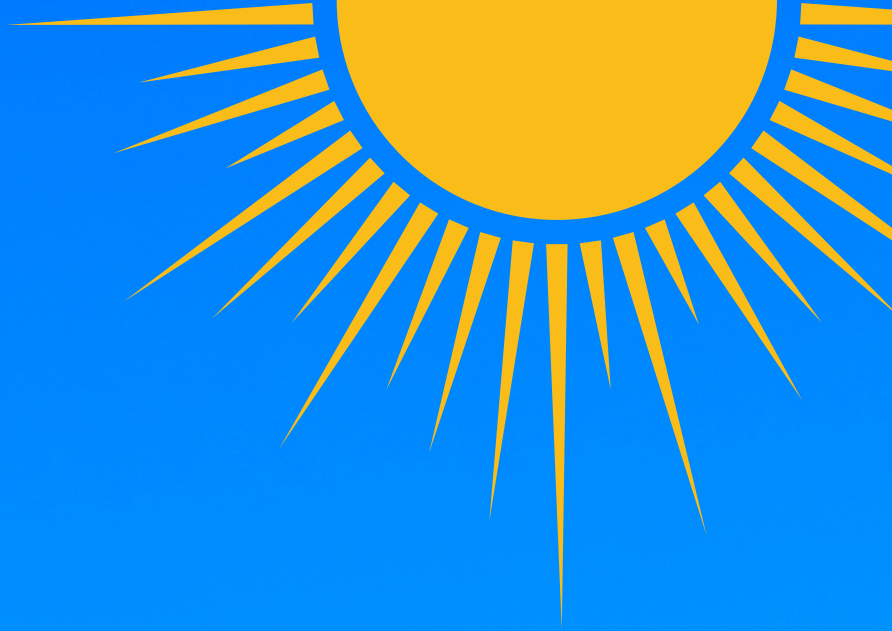

He loves to play games with
you, like chasing a ball.
Playing, to a dog, is the
greatest thing of all!

She will even watch
patiently while you fly a
favorite kite. As long as
she is with you, she knows
everything's all right.

**Dogs don't like to stay in the
yard all alone...**

especially not in the
winter, when it is freezing
outside the home.

He will also feel frightened by storms with lightning ablaze,

**and he should never be alone in
the heat on sunny summer days.**

Dogs feel safest when they live indoors instead, snug and safely snoozing on a fluffy doggie bed.

Even gentle, giant dogs need
a kind and soft touch.
Anything else would be just
a little too much!

Don't scare your dog with rough-and-tumble play. Too much yelling and shouting might scare her away.

Give your best friend
plenty of water...

and food every day. She gets very hungry and thirsty from all the doggie play.

Just like little children, a pup might make a mistake. Be patient and nice--she will learn, and it will be well worth the wait!

Treat your dog with
kindness, and the fun will
never end.

Be kind to your dog, and he
will always be your very
best friend.

THE END
